Introduction:

Une ligne de basse plus difficile qu'on pourrait l'imaginer car il y a beaucoup de glissés et de syncopes, les autres difficultés sont les contretemps, les notes courtes et les notes muettes.

Pour la partition de basse il y a deux bémols à la clef: le Sib et le Mib.

La partie de batterie est très intéressante car il y a beaucoup de variations, les difficultés sont les contretemps à la grosse caisse, les flas, les breaks en doubles-croches et les syncopes sur la cymbale crash.
